Summary

I am a motivated tech enthusiast passionate about web and software development. I am a third a year student at KCA University. I have learned a considerable number of skills such as UI design, programming and web development. I am dedicated to learning and improving my skills to solve real world problems. Naturally, I am an artist which gives me an edge in aesthetic design and my passion for problem solving in programming.

Experience

I engage in freelance programming and web development tasks. Also, I work on my own side projects as I constantly upgrade my skills. Find my GitHub profile here.

Education

BSc. Software Development, KCA University, Nairobi   **2020—2024**

I am currently studying a Bachelor's degree in Software Development where I am set to graduate in 2024. I have covered all important fundamental including Data structures and Algorithms, Database design and Human computer interaction.

KCSE, Maranda High School, Bondo   **2016—2019**

I completed my high school education here with a mean grade of B+, with an A in Mathematics and A- in physics.
